Building Wealth: Independent Learning Guide

The role models in the video "Building Wealth" discuss the importance of creating and maintaining financial resources. These resources can help you to create the life you want.

Watch the video "[Building Wealth](#)" at least once. Then read each statement below. Think carefully about each question before you answer it.

- 1. Listeners learned that creating financial resources isn't just about earning a paycheck. Instead, you must make smart decisions about what to do with your money every day.

What types of things did the role models suggest doing with money? How will these things help you build wealth?

- 2. One role model told us that building wealth is about "using math to create the life you want."

Do you have to be good at math to build wealth? Can anyone make the choice to create and maintain their financial resources? Why or why not?

3. Listeners learned about many of the steps that they can take to build and maintain wealth.

What do you think is the hardest part about building wealth? What is the easiest? Explain your answers.

4. A role model said that "having financial stability will allow you to take care of your family... to take care of yourself."

What does financial stability mean to you? How can being financially stable allow you to better take care of yourself and your family?

5. Delayed gratification can be a powerful tool to use in building wealth.

Have you ever practiced delayed gratification? Was it easy or hard? What types of things could you practice delayed gratification on in the future?

6. An important step to take towards building wealth is having a vision of what you want in the future.

Use the space below to draw a picture of your vision for the future. Think about the types of things do you want to do, see, and have in your life.

Describe your picture.
